

## SZXQYG-HD1 Section of Shenzhang Line Qingyanggang Section Waterway Improvement Project

申张线青阳港段河道整治工程航道施工项目 **SZXQYG-HD1 标**

### 项目简介:

申张线青阳港段全长 **7.646** 公里，是苏南地区至太仓港内河集装箱运输核心通道的重要航段，也是联系苏州南、北航道网的关键航段。

该标段主要工程建设内容包括护岸工程、涉水土方工程及软基处理等。主要工程量如下：

土方约 **34.38** 万方,航道护岸约 **3.78** 万方。

### Project brief:

The SZXQYG-HD1 Section of Shenzhang Line Qingyanggang Section Waterway Improvement Project has a total length of 7.646 km, which is a crucial section of the core inland container transportation channel from southern Jiangsu to Taicang Port, and also a key link connecting the southern and northern waterway networks of Suzhou.

The main construction works of the SZXQYG-HD1 section include revetment works, water-related earthwork works and soft soil foundation treatment. The main project quantities are as follows: Earthwork: 343,800 M<sup>3</sup>, Concrete for waterway revetments: 37,800 M<sup>3</sup>.
